## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-38 are allowed.
2. The following is an examiner's statement of reasons for allowance: With regard to claims 1 and 17, the prior art fails to teach or suggest a control system for controlling existing traffic signal lights a flashing unit, a power storage device, a charging device, and a voltage re-router connected with the charging device and the power storage device for activating the charging device when the AC line voltage is sufficient to operated the flashing unit.
3. With regard to claims 6 and 22, prior art fails to teach or suggest the prior art fails to teach or suggest a control system for controlling existing traffic signal lights a flashing unit, a power storage device, a charging device, load switches for supplying AC power, a conflict monitor, relay means for transferring supply power for the lights from the load switches to the flashing unit, and wherein the conflict monitor measures AC field wire voltages to determine whether or not a malfunction has occurred so that corrective active may be taken.
4. As for claim 34, prior art fails to teach or suggest the additional limitation incorporated therein, wherein the lines of the voltage re-router are connected between the charging device and the output side of the voltage disconnect device.

Art Unit: 2636

5. As for claims 37 and 38, prior art fails to teach or suggest the limitations incorporated therein as discussed above, as well as having control lines connected between the voltage re-routing circuit and the output side of the voltage reduction circuit, or control lines connected between the voltage re-routing circuit and flashing unit, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
